

# **DASH-SURFER**

## **INSTRUCTION SHEET**

### **Contents:**

1. Covered board
2. Mounting plate and receiver tube (with pre-attached adjustment knob)
3. Base and adjustment leg
4. 4 hex-head bolts (1/4" X 1"), 4 lockwashers

### **Assembly:**

On the bottom of the board, place the mounting plate over the pre-installed holes with the receiver tube to the rear, as shown.

Place one lockwasher on each bolt.

Align holes - insert bolts, finger start each before tightening with wrench, to avoid cross-threading.

Insert adjustment leg into vertical brace as shown.

Using adjustment knob, position at desired height.
